

ADHESIVE RESINS

ITEM NO.	MAIN COMPONENT	FORM	SOLID CONTENT (%)	VISCOSITY (CPS)	PH	MAIN USES	SPECIAL FEATURES
AS-500	Isocyanate Ester Polymer	White Emulsion	50 ±2	8,000 ±2000	5~7	Adhesion of Solid Wood Parquets Manufacturing , Artificial Laminate Strip Blocking , Laminate Plank Floor Assembling , Plywood Laminating , Furniture Manufacturing , as well as Wood Work Adhering	Two Components Adhesive , Add with Crosslinking Agent CA-30 Will Cure at Low Temperature , Excellent Adhesion , Strong Adhesion and Boiling Water Resistant , Environmental Friendly and Contains no Toxic or Harmful Formalin (Formaldehyde) , Phenol , etc.
